	Course Last Update Effective	Fall 2014	Spring 2015
	Course Catalog Number	5252	5253
	Course Minimum Credit Hours	2	3
	Course Repeat Limit - Units	6	9
	Course Catalog Description	Students attend a weekly seminar by business leaders presenting technologies used by their companies, with a focus on Arkansas-based companies. Currently used technology, future technology needs for their industry, and innovative ideas for new nanomaterials as potential progressive solutions will be discussed.	Business leaders present technologies used by their companies. Focusing on Arkansas-based companies, technology needs for the industry and innovative ideas for solutions or advancements are discussed. Students work to develop solutions to address company needs or further develop a company's current technology.
	Course Title/Description Change Type		Minor (stylistic/editorial) Change
	Course Syllabus		MEPH 5253 Spring 2015 Syllabus.docx
	Justification		After completion of one semester of MEPH 5252 the need for a co-requisite lab course was recognized. This lab course was originally proposed as MEPH 5251L, however, during the review by the MEPH faculty on 9/9/14, it was recommended and approved that rather than adding MEPH 5251L, adding the lab component to MEPH 5252 and changing to a three credit hour course - MEPH 5253 - would be more appropriate.
