## Course Changes Pending Approval from Graduate Committee

Code	Field	Old Value	New Value
AECT 610V		Added	
AECT 620V		Added	
AGED 5411	allcodes	AGED 5563	AGED 5411
	Proposed Effective Date	Spring 2018	Fall 2021
	Course Number	5563	5411
	Component Type	Seminar	Lecture
	Credit Hours	3	1
	Catalog Description	The purpose of this course is to assist graduate students in the preparation of their thesis research proposal. Students will produce the first three chapters of their thesis by the end of the course.	The purpose of this course is to assist graduate students in the preparation of their thesis or dissertation research proposal. Students will produce the first three chapters of their thesis by the end of the course.
	Justification	Updated typically offered field.	This course has recently been revamped from a 3-credit course to a 1-credit course and has been offered as a 1-hour seminar section (AGED 5001). It is now the first in a series of three 1-hour writing courses focused on research proposal writing, grant writing, and technical communication. The AECT Department would like for these courses to have their own permanent course numbers.
	Course Code	AGED 5563	AGED 5411
	Title/Description Change Type		Major Content Change
	Syllabus		AGED 5411 Thesis Proposal Development Syllabus SP21.docx
	Additional Notes		5401, 5411, 5421, 5431, 5451 are also available numbers
	Reviewer Comments		ac087 - Mon, 10 Aug 2020 15:20:52 GMT - Rollback: first three digits of course catalog numbers cannot repeat and 5463 is an active course. 5451 is available for use.
AGED 5421		Added	
AGED 5431	allcodes	AGED 5483	AGED 5431
	Proposed Effective Date	Spring 2018	Fall 2021
	Course Number	5483	5431
	Credit Hours	3	1
	Catalog Description	This course will provide students with the basic principles and techniques in communicating social science information relevant to human subject research in agriculture, natural resources, and life sciences to the general public. Communication processes covered in the course include audience identification, writing, editing, and production of social science-based materials for popular and refereed publications. Focus will also be placed on thesis preparation and writing and research manuscript development and dissemination of social science research. Web delivered course.	This course focuses on audience identification, writing, editing, formatting and production of social science-based materials for publication. Much of the course content is in the context of developing the findings, conclusions, and recommendations of the master's thesis or other research manuscript. Principles include communicating information relevant to human subject research in agriculture, natural resources, and life sciences to research peers. Course delivery is asynchronous.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change

	Justification	Updated typically offered field.	This course has recently been revamped from a 3-credit course to a 1-credit course and has been offered as a 1-hour seminar section (AGED 5001). It is now the third in a series of three 1-hour writing courses focused on research proposal writing, grant writing, and technical communication. The AECT Department would like for these courses to have their own permanent course numbers.

CNED 5352	allcodes	CNED 5353	CNED 5352
	Proposed Effective Date	Spring 2018	Spring 2021
	Course Number	5353	5352
	Typically Offered	Summer	Spring and Summer
	Course Delivery Method	On campus Off campus	Off campus
	Credit Hours	3	2
	Justification	Updated typically offered field.	This course is changing from a 3-credit hour to a 2-credit hour course to make room for another 1-credit hour course (tele mental health counseling) which is a new licensure requirement in the state.
	Course Code	CNED 5353	CNED 5352
	Is course a General Education Course?		No
CNED 5541		Added	
ENSC 5033	allcodes	ENSC 5034	ENSC 5033
	Proposed Effective Date	Fall 2019	Spring 2021
	Course Number	5034	5033
	Credit Hours	4	3
	Catalog Description	Methods of analysis for inorganic and organic contaminants in soil and water. Quality assurance and quality control, sampling protocols, sample handling, instrumentation and data analysis. It is recommended that students have taken (CHEM 2613 and CHEM 2611L) or (CHEM 3603 and CHEM 3601L) or an equivalent chemistry course.	Methods of analysis for inorganic and organic contaminants, and microorganisms in soil and water. Quality assurance and quality control, sampling protocols, sample handling, instrumentation and data analysis. Lecture 3 hours.

	Justification	The lab component is being dropped and 1 hour is being added to lecture. Laboratory facilities and equipment are not available to conduct the analyses covered in the course. Topics and concepts are thus better covered in exercises in lecture.	There is no longer a lab offered with this course. (Lab was dropped last time the course was offered because of lack of instrumentation for teaching purposes). Credit hours are being adjusted to match 3-hour lecture content.

ISYS 6533	Proposed Effective Date	Summer 2018	Spring 2021
	Catalog Title	Macro- and Meso-level IS Research	Information Systems for Managing Organizations and Platforms
	Short Course Title	MACRO MESO-LEVEL IS RESEARCH	ISYS FOR MANAGING ORG/PLATFORM
	Catalog Description	This course aims to expose students to research at the macro- and meso-levels. For example, it could provide a window into major streams of organizational-level research in IS and reference disciplines. Topics could also include: change management, ERP research models, implementation, applications, and successes/failures, and ERP simulation models. Other topics that fall within the purview of the course are: large-scale technology and process innovations in organizations—e.g., software development process innovations and RFID will be examined at various levels (e.g., organizational).	The goal of this seminar is to provide an understanding of the issues related to the organizational impacts of information technologies, the processes to create value by using information technologies, and the strategic and competitive dynamics related to information technologies in organizations. Students will read and discuss various theories, conceptual issues, and empirical papers pertaining to research on these topics of inquiry.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Justification	Updated typically offered field.	Update to title and description to reflect changes in research and industry.
	Is course a General Education Course?		No
	Prerequisite(s)		Graduate standing and permission of the ISYS PhD Coordinator.
	Syllabus		ISYS 6533 Information Systems for Organizations and Platforms Syllabus.docx
OCTH 678V	allcodes	OCTH 6782	OCTH 678V
	Proposed Effective Date	Fall 2019	Spring 2021
	Course Number	6782	678V
	Typically Offered	Summer	Fall, Spring and Summer
	Credit Hours	2	1
	Can this course be repeated for degree credit?	No	Yes
	Prerequisite(s)	OCTH 5781.	Departmental consent.

	Justification	This course is required to meet new accreditation standards related to prerequisites for participation in the Capstone Experience and Project. This course facilitates synthesis of all previous coursework and experiences.	Minor changes to the pre-requisite, number of hours, and typically offered sections.

	Course Code	OCTH 6782	OCTH 678V
	Is course a General Education Course?		No
	Maximum Credit Hours		2
	Total credits allowed		2
	Total completions		2
OMGT 5733	Proposed Effective Date	Spring 2018	Spring 2021
	Catalog Title	Human Behavior Analysis	Human Factors in Operations Management
	Short Course Title	HUMAN BEHAVIOR ANALYSIS	HUMAN FACTORS
	Catalog Description	Examination of the principal drivers of individual and group behavior in organizations with coverage of practical applications of concepts in organizational behavior for operations managers. In addition to group behavior and organizational processes, the course explores people management challenges that result from external pressures on stakeholders (e.g. competitive, economic, social, political, and regulatory impacts).	Introduces the interaction of humans with systems, attempting to apply the same rigor of purpose and understanding to these systems and interactions as with production planning, supply chain design, or other elements of operations management. Emphasizes identifying, diagnosing and finding solutions for perceptual, cognitive and organizational errors. The scientific method and various quantitative and qualitative research techniques will be used to both evaluate and solve problems as well as determine and frame outcomes
	Prerequisite(s)	OMGT 4313 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent.	Must be admitted to the Master of Science in Operations Management Program, Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent.
	Justification	Registration clarification.	Update of behavior analysis to focus on human factors involved. Updated asynchronous online offering.HUA
