	Description and justification of the request	<p>Most of the noted changes are related to formatting, clarifying the language, and rearranging the order of the listed requirements. In addition to these editorial changes, the following minor changes were noted: </p> <p> </p> <p>1. In the admissions requirements, "Autobiographical sketch" was changed into "Statement of Interest", "Writing demonstration" was changed into "writing sample", and "three years of professional experience" was changed into "relevant professional experience". </p> <p>2. We added Legal Aspects and Governance as required Higher Education core courses and removed Intro to the Study of Higher Education and Assessment. </p> <p>3. In the research requirements, we added three credit hours of additional advanced research methods (qualitative or quantitative), approved by student's advisory committee (total hours required in the program has not changed, because the hours for skill-based higher education courses were decreased from 12 to 9 credit hours). </p> <p>4. The list of elective and skill based courses were updated/expanded to allow more options for students. </p>	<p>Combined 9 hours of skill-based electives and 6 hours of general higher education electives sections into one section. The section currently reads as "15 hours of approved Higher Education courses". This change will allow more flexibility in the degree plan. Faculty also believe that the majority of higher education courses are skill-based, so the distinction between skill-based and general higher education courses was arbitrary and not easily understood by students.</p>
